## Employment Status of Respondents while in School

## Primary Reason for Pursuing a Degree

### **CAREER EXPERIENCE CAN MAKE A DIFFERENCE!**

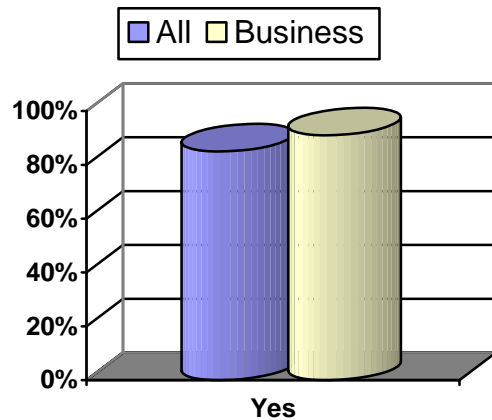

For College of Business graduates, 89% of respondents indicated they worked while attending school, slightly higher than the average for all students (86%). Of those who did work, 51% characterized their work as primarily full-time, compared to 54% for all students.

Of the students who reported working while in school, 56% said their pre-graduation employment was related to their field of study. The national trend continues as students with career-related experience develop marketable skills and networks of employer contacts leading to greater success in their career searches upon graduation.

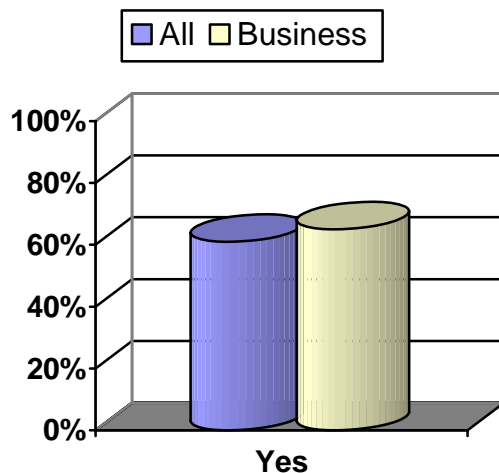

### **TOP 7 CAREER SERVICES UTILIZED BY STUDENTS**

**Do you believe your UNLV education has prepared you for your chosen profession?**

**Did the degree you recently completed through UNLV help you obtain, enhance your status in and/or make you eligible for promotion in your current position?**

**JOB OUTLOOK:  
Continued Improvement!**

The job market for 2005 – 2006 graduates was much improved, with more employers seeking UNLV students and alumni than in the previous 4 years. Graduates reporting career-related current employment status within 3 months of graduation revealed good results for business majors (see chart below).

65% of College of Business respondents felt their degree helped them obtain, enhance their status in, and/or made them eligible for promotion in their current positions. Other good news is that On-Campus Recruiting interview opportunities have increased for the second year in a row, with visits by employers seeking business majors up 21%. This increase contributed to the reported **75% employment rate for College of Business 2005 – 2006 graduates**. However, a large number of the “unemployed” respondents were actively pursuing graduate school, relocating, or taking time off.

Responding Business students identified our annual career day, career handbook and the Career Services website as the top three tools they utilized from us. Students should use all available tools in their job searches, including **UNLV CareerLink**, our online recruiting management system that includes job and internship postings, Resume Books, and On-Campus Recruiting. In addition we host career fairs twice a year, which are great opportunities for networking and researching current and future employment and internship opportunities.
