**JOB OUTLOOK:
Continued Improvement!**

The job market for 2006 – 2007 graduates continued to be positive, with the highest number of employers seeking UNLV students and alumni since pre-9/11. Graduates reporting career-related current employment status within 3 months of graduation revealed good results for Business majors, though slightly below the average for all colleges (see chart below). On-Campus Recruiting interview opportunities increased for the third year in a row, with 33% of the employers seeking Business majors. This increase contributed to the reported **74% employment rate for College of Business 2006 – 2007 graduates**. In addition, 77% of the respondents who reported they were unemployed were not seeking employment.

Also of note: 60% of College of Business respondents felt their degree helped them obtain, enhance their status in, and/or made them eligible for promotion in their current positions. Responding Business students identified our annual career day, career handbook and website as the top three tools they utilized from Career Services.

Students are advised to use all available tools in their job searches, including **UNLV CareerLink**, our online recruiting management system that includes job and internship postings, Resume Books, and On-Campus Recruiting. In addition we host career fairs twice a year, which are great opportunities for networking and researching current and future employment and internship opportunities.
